SAXOBANK.AE

The saxobank english/arabic site was developed under saxobank identity program for web solutions, though the structure solution responds to our department's analysis of the Middle East marketplace which it was the region for activity for this site. Arabic version also available.

The front page is built in three main columns structure. The first two contains all the product offering and access to their specific pages the third column will be the current campaign banner area and contact access. the thre banners at the bottom are permanent special services campaigns.
